Subject: My new home

Ms. Bethea,

This is a bit late but believe me when I say "thank you" from the bottom of my heart in helping me to get into my own home.

I can't begin to thank you and the HR Planning District Commission enough for giving me the extra help that I needed to make this dream come true. It's been a long, hard road for me in ways that most would never understand. But with God's grace and mercy I have persevered. I keep walking around in my house looking and admiring everything and still a bit in awe.

Thank you again. I wish you and everyone at HRPDC a Merry Christmas and prosperous New Year. When my path crosses that of someone else who may be in the same position as me, I will surely recommend your organization to them.

Be blessed,

Lorraine Parker
