7. Roundtable Discussion

Committee members shared information and current issues with their FOG programs.

- Newport News – exploring feasibility of grease recycling at multi-family properties (Valley Protein would provide the service and maintain facilities)
- Virginia Beach – Provided sample form that committee may want to adopt as the regional program form for those companies that do not already have a good quality form to use for cleanings.
- HRSD – Potential for exploring changes to technical standards that would make a GCD required in new multi-family construction projects. The committee supported this possibility.

8. Staff Reports

- What Not to Flush stickers are being seen around Hampton Roads and local business owners are requesting their own stickers to post in their restrooms.
- askHRgreen Planning Retreat occurred on July 8th. The product will be a five year marketing plan for the askHRgreen brand. FY16 focus will be on website redesign, but other priorities discussed included rethinking the target audiences, diversifying media used and a formal social media plan. Marga Cahoon of Cahoon & Cross will attend the August meeting to identify committee priorities for FY16.
