

Figure 5.10 Airport Enplanements at Hampton Roads Major Airports

Why is it important?

As the world inches ever closer to a global economy, access to airports and air travel becomes increasingly important.

How are we doing?

Value priced airlines have increased competition in the Hampton Roads market, driving down prices and increasing air traffic. Evidence of the effect that prices have on the demand for travel is apparent after a price war in 1994 brought about a surge in air travel. Enplanements have declined as a result of the recession and ongoing economic weakness.
