

ZONING VARIANCE/EXCEPTION APPLICATION

An application for relief from a Zoning Ordinance regulation requires consideration by the City's Board of Zoning Appeals (*a seven member Board comprised of Poquoson residents appointed by City Council*). As a part of the consideration process, a public hearing must be held to receive comments from those who are either in favor of or opposed to the request. Applicants are encouraged to attend the meeting to represent the application. Typically the Board meets the fourth Wednesday of each month at 7:00 p.m. in the Council Chambers located at 500 City Hall Avenue. In order for an application to be scheduled for consideration, the following must be satisfactorily addressed:

APPLICANT RESPONSIBILITY

Submit a complete application at least 30 days prior to a scheduled meeting date. A complete application includes:

- Answer all application questions;
- Endorse the application. All land-owners must sign application;
- Provide plan and elevation drawing of the project as requested in No. 8A and 8B of attached application;
- Submit a minor/major water quality impact assessment report for RPA encroachments. You will be advised by City staff if a report is required;
- Pay \$200 application processing fee; and
- Stake the proposed improvement area on the property.

Once the above-listed items are satisfactorily addressed, City staff will commence with processing your application for consideration by the Board of Zoning Appeals. At that time, please expect the following to occur:

- Members of City staff and the Board visiting the project site during reasonable hours. A majority of Board members will visit the property one to seven days in advance of the meeting date.
- Advertise the application for public hearing twice (*one and two weeks prior to meeting date*) in the Poquoson Post and/or Daily Press and on the City's Local Cable Access Channel.
- Post signs at the project site that further announces the public hearing date. The signs will be removed by the City's Public Works Department shortly after the meeting date.
- Notify adjacent property owners in writing of the request.

Questions concerning this application process should be directed to the City's Planning Department at:

NECESSARY FINDINGS

Before granting a variance to a Zoning Ordinance requirement, the Board must find that the request adheres to the following four conditions:

- That strict application of the ordinance would produce an undue hardship and prevent reasonable use of the property. Personal hardships are not grounds for the granting of a variance;
- That such hardship is not shared generally by other properties in the same zoning district and same vicinity;
- That authorization of such variance will not be of substantial detriment to adjacent property and that the character of the district will not be changed by the granting of the variance; and
- That the condition, situation or intended use of the subject property is uncommon.

In addition, before granting an exception to the City's Environmental Management Area Overlay District regulations (i.e. reduction of RPA buffer zone), the Board must find that the request adheres to the following conditions:

- a. The request shall not be based upon self-created or self-imposed conditions or circumstances. The exception must be given to alleviate requirements imposed by the implementation of the ordinance and shall not afford a special privilege or mere convenience sought by the applicant.
- b. The physical characteristics of the property and/or existing development must be such that, in the opinion of the board, there exists no other reasonable option or location outside of the required buffer area.
- c. The exception request shall be the minimum necessary to afford relief.
- d. Reasonable and appropriate measures shall be proposed in order to maintain or reduce the pre-development Pollutant Loading Index of the property. The proposed development shall not effectively increase the Pollutant Loading Index.
- e. The exception request shall be consistent with the purpose and intent of the Overlay District, and not injurious to the neighborhood or otherwise detrimental to the public welfare.
