William T. Hopkins, III, CZA

Director of Planning, Engineering & Public Works

TOWN INSPECTIONS:

The Town shall inspect the following for any new single family residence or commercial structure (if applicable):

- Address numbers on the building
- Water meter boxes
- Sewer clean outs
- Sewer tie-ins (before it's backfilled and covered up)
- Driveway Culvert (24 ft. of RCP pipe is required. The pipe diameter and invert shall be approved by the Town prior to installation)
- Driveway apron inspections (prior to material installation)
- Driveway description (circle one): Concrete / Gravel / Asphalt (see attached)

NOTE: The permittee, as signed below, takes full responsibility/liability for the proper installation of the above referenced items and for any damage incurred to the Town's existing water, sanitary sewer facilities and roadway infrastructure on site.

I agree with the above referenced statement _____ (Print Name) _____ (Signature)

MISCELLANEOUS NOTES:

Before work begins, a building permit must be obtained from Isle of Wight County. They can be contacted at 357-3191 ext. 213.

All fees must be paid at time the zoning permit is issued. The Contractor must have a **Town of Smithfield Business License** and is responsible for maintaining cleanliness of work site.

If any structure, temporary or permanent, is placed in any easement, and the Town of Smithfield has to do any type of work in that easement, then the structures may be moved at the property owner's expense.

A Chesapeake Bay Ordinance Worksheet must be submitted for all new construction.

Two off-street parking spaces are required per dwelling unit.
